Since 1974, DME has become the global leader in manufacturing high quality flexible solutions. At DME, the emphasis has always been customer service and continual improvement, coupled with the knowledge, experience and enthusiasm of dedicated employees. This has enabled DME to maintain a reputation as the preferred manufacturer for an ever-increasing number of customers.

Capacity:

Metal Bellows from 1" to 160" dia.

Rubber Bellows up to 200" dia.

Metal Hose up to 30" dia.

Fabric Bellows up to 2000°F

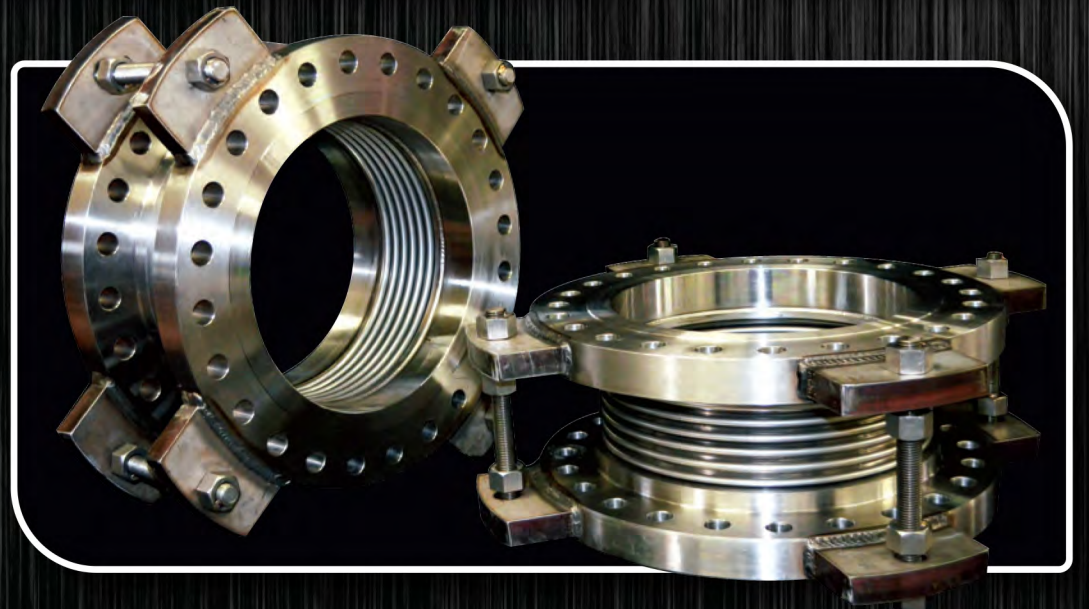

Dedicated Emergency Production Area

DME-Staffed Field Survey Specialists

Experienced Engineering Staff

Extensive Machine Shop Capabilities

STOCK METAL BELLOWS UP TO 48" dia.

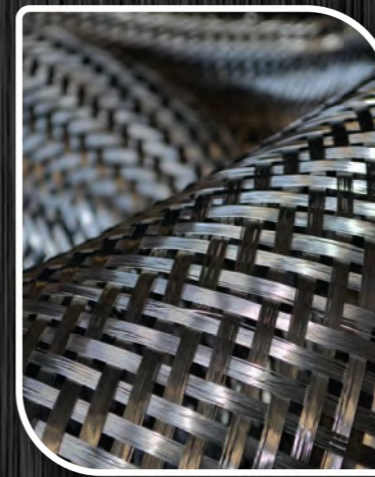

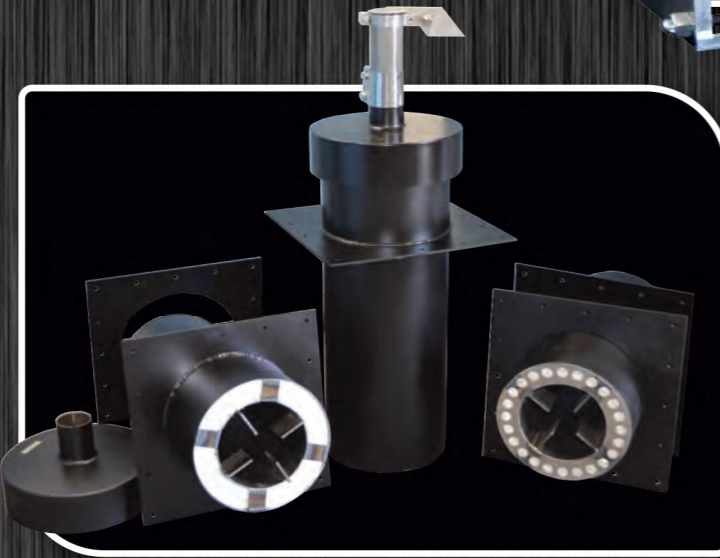

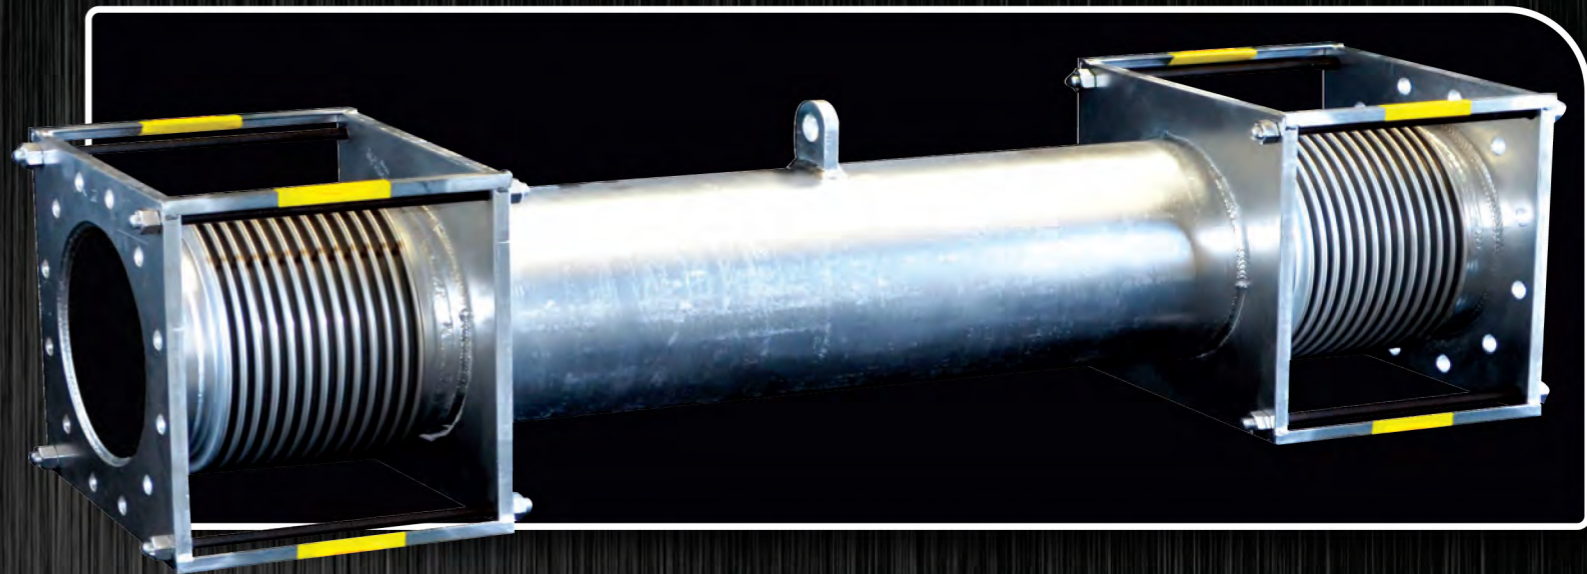

Expansion Joints:

Single
Universal
Hinged
Tied
Gimbal
Rectangular
Pressure Balanced
Two-Ply Testable
Rubber
Fabric
Externally Pressurized
Pump Connectors
Same Size Clamshells
Oversize Clamshells
Ducting Expansion Joints

Other Products:

Braided Hose Assemblies
Exhaust Wye Assemblies
Custom Fabricated Flanges
Wall & Roof Thimble
Prefab Exhaust Assemblies
Seismic Flex Assemblies
Gaskets, Nuts & Bolt Kits
Rain Caps

Common Applications:

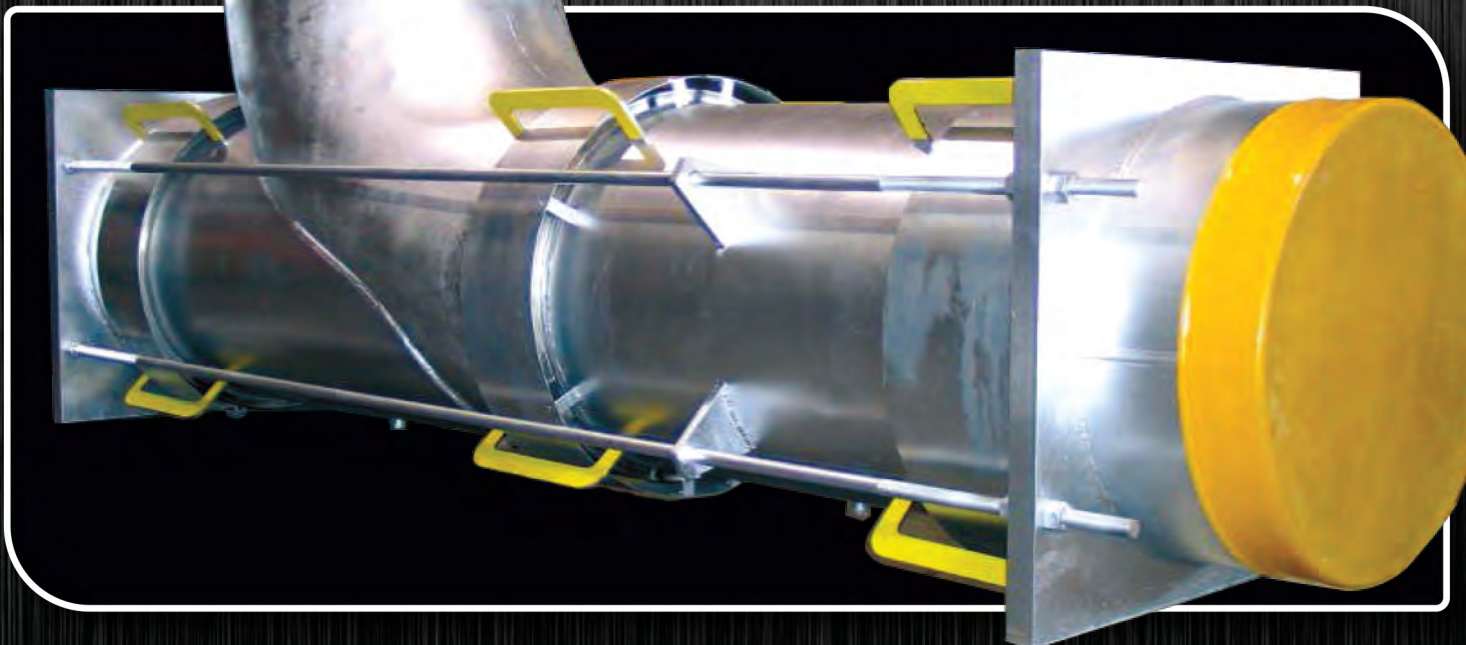

Piping System
Refinery FCCU
Power Plants
Styrene
Cement Plants
MTBE
PTA
Ethylene
Marine Exhaust
Landfill Gas
Co-Gen (CHP)
HRSG
Mining
Rail

Flue Gas & Exhaust Ducting
Petrochemical Plants
Pipe Penetration
Turbine Crossover
Paper & Pulp Facilities
Steam Extraction
PDH
Polyethylene
Heavy Equipment
Solar
LNG
Cryogenic
Water Treatment
Military

Quality:

ISO 9001:2008 Certified
In-House PMI Capabilities
Certified Liquid/Dye Penetrant Inspection
Welding Conforms to ASME Section IX
Bellows Designed in Accordance
with EJMA Standards
